Information Disclosure Statement

1. The listing of references in the Search Report is not considered to be an information disclosure statement (IDS) complying with 37 CFR 1.98. 37 CFR 1.98(a)(2) requires a legible copy of: (1) each foreign patent; (2) each publication or that portion which caused it to be listed; (3) for each cited pending U.S. application, the application specification including claims, and any drawing of the application, or that portion of the application which caused it to be listed including any claims directed to that portion, unless the cited pending U.S. application is stored in the Image File Wrapper (IFW) system; and (4) all other information, or that portion which caused it to be listed. In addition, each IDS must include a list of all patents, publications, applications, or other information submitted for consideration by the Office (see 37 CFR 1.98(a)(1) and (b)), and MPEP § 609.04(a), subsection I. states, "the list ... must be submitted on a separate paper." Therefore, the references cited in the Search Report have not been considered. Applicant is advised that the date of submission of any item of information or any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the IDS, including all "statement" requirements of 37 CFR 1.97(e). See MPEP § 609.05(a).

Drawings

2. The drawings are objected to because:
- a. Figs. 1, 2A, 2B, 3, 4, 9, & 10 each include multiple views.
 - b. Reference character A is used to identify bending torque in Fig. 3 and reused to identify a drive source in Fig. 5

- c. Fig. 8A includes the reference character S that is not mentioned in the description.

3. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as “amended.” If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

4. The specification is objected to as failing to provide proper antecedent basis for the subject matter in claim 5.

11. Claims 1, 2 & 4-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Zublin, US 2,515,366. Fig. 1 shows a transmission shaft comprising every limitation of the claims.

12. Claims 1, 2, 7 & 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Schmidt, US 3,203,285. Figs. 1- show a flexible transmission shaft for transmitting a torque from a drive source to a driven load, the flexible transmission shaft comprising a pipe-shaped shaft 11, which has one or more slits extending in a circumferential direction of the shaft, each of the slits having two opposed surfaces isolated from each other by the slit, a plurality of protrusions 18 protruding from one of the opposed surfaces, and a plurality of recessions 19 formed in the other one of the opposed surfaces to receive and support the protrusions therein. The flexible transmission shaft has one end 17 in which a first groove 24 is formed to receive a torque from a wrench drive source and other end 12 in which a second groove is formed to offer the torque to a nut or a bolt (see col. 1, line 18).
